

## Interchangeable Heads – Box Head (98.4 mm)

Interchangeable ring spanner head with Sturtevant Richmond dovetail socket. Special version with large centre distance. Can be used with SR torque wrenches of the LTC series, SLTC series, SLTC-FM series and CCM series from model 400 Nm resp. 300 Ft.lb or above.

Sturtevant Richmond's unique dovetail design, which joins the attachment and torque wrench together, provides an exceptionally strong connection and also ensures complete interchangeability of the heads. The SR dovetail system avoids unnecessary increases in purchase and ownership costs, contributes to operational flexibility and increases your return on investment (ROI)!

**Note:** Other spanner sizes or special designs available on request.

- Double hexagon with 12-point force transmission.
- Sturtevant Richmond dovetail connector with outstanding rigidity and wear resistance.
- Tool steel, black finished, manufactured according to DIN 3111 or DIN 7444.
- Torque according to DIN 899 Series C.
- **Centre line 3 7/8" (~98.4 mm).**
- Recommended for use with pre-set dovetail torque wrenches
  - ✓ Series LTC, SLTC, SLTC-FM
  - ✓ Series TAC
  - ✓ Series CCM 400 Nm / 300 ft.lb or above

### INFO

*Dovetail tool heads with the same centre distance can be interchanged without having to re-adjust the torque wrench.*

*However, when changing heads with different centre distances, the torque must be re-adjusted each time!*
